

**Workshop on Self-Organization in Multi-Agent Systems  
SOMAS 2009**  
**at the 3rd KES International Symposium on Agent and  
Multi-Agent Systems: Technologies and Applications  
KES AMSTA 2009**  
**3 - 5 June 2009, Uppsala, Sweden**

**Call for papers**

The aim of the workshop is to bring together, for the second time at KES AMSTA, researchers working on self-organization and adaptive multi-agent systems as well as to discuss these issues and to present current research results. Topics of submitted papers should focus on MAS concerning both theoretical and application aspects in the following areas:

- Self-organization: paradigms and applications
- Self-adaptation and evolution
- Topology and performance evaluation
- Knowledge propagation and coordination
- Robustness and fault tolerance
- Dynamic team formation
- Nature-inspired approaches
- Cellular and organic grids, agent colonies
- Social network analysis

## Important dates

- Paper submission **31 Dec 2008**
- Acceptance notification **10 Jan 2009**
- Camera-Ready Papers **01 Feb 2009**

## Paper submission

Submitted papers should contain original and interesting research results not published elsewhere. The symposium proceedings will be published by Springer-Verlag in Lecture Notes in AI as part of the LNCS/LNAI series.

A selected number of accepted and personally presented papers will be expanded and revised for possible inclusion in special issue of [Journal of Intelligent and Fuzzy Systems](#) (approved).

Please follow the instructions given at the [KES AMSTA](#) site to format your paper. All submissions must be sent electronically using the PROSE software review system.
